

We need your help this summer!

Please write comments and attend the upcoming EIS hearings

1. [Water Grab EIS Guide Available](#) – The [Guide](#) offers help for concerned citizens to participate in the process and understand and comment on the proposed project and its impacts. The future of one of America's last great landscapes is at stake! Read the Great Basin Water Network's Water Grab EIS Guide to understand the huge impacts identified in the EIS and develop your own comments.
2. [Attend an EIS Hearing in Your Town](#) – Please attend even if you do not plan to speak. Numbers count and are important! Printed versions of the [Water Grab EIS Guide](#) will be available at the hearings – look for our table. See the hearing schedule below.
3. [BLM Extends comment period to October 11, 2011](#) – Thanks to an outpouring of requests from all of you and many other Water Network supporters, the BLM made a small (30 day) extension to the original comment period deadline. We continue pressing for the full 90 day extension.
